LEADING MILLINER.

Arlington Block HOTEL STREET

To Those in Quest of A RUG...

To Intending Purchasers
of Rugs we would state that just before
the change in tariff we received a large
and varied assortment of

Japanese Rugs

By purchasing these Rugs before
the change, a saving of about fifty (50)
percent. was effected, which our cus-
tomers are to profit by, as we do not in-
tend, at present, to increase the price
but will sell them, while they last, at the
old figure.

Under these conditions, a buyer
here can now purchase these Rugs
for much less than they are sold for on
the mainland.

We have made a display of these
Very Handsome Rugs in our large,
central show window, where their beau-
tiful designs and harmonious coloring is
sure to attract attention.

THE ARMY HOSPITAL IN ITS NEW HOME.

Pleasantly Located on
Wyllie Street, Off
Nuuanu Ave.

BUENA VISTA ON HEALTHFUL SITE.

AMPLE ACCOMMODATION FOR
THE SICK OF THE ARMY
AND NAVY.

Equipment and Furnishings Mod-
ern Throughout and Thorough-
ly Up-to-Date—Value of Its
Practical Training.

Buena Vista hospital, the United States army hospital at this port, has been established on Wyllie street, near Liliha, just off Nuuanu avenue. It is a magnificent site, being in many respects preferable, even, to the former location on the fine property of C. S. Desky, on Nuuanu avenue. The government had leased the grounds of Mr. Desky for an indefinite period and on being notified that it would have to vacate the home of W. Seaborn Lane, on Wyllie street, the surrounding grounds were leased by the United States government for a period of two years at \$200 a month. The grounds and street approaching it were graded at once and the removal of the buildings from Nuuanu avenue to Wyllie street was begun on June 15th last and now the army hospital is pleasantly housed on the new site. The removal was quickly accomplished, without inconvenience to the patients, by Chief Steward Herbst, under the direction of Major Platt E. Taylor, surgeon, U. S. A., medical director of the department.

Buena Vista hospital is no small affair. It treated 620 cases of all types of disease last year and its success was phenomenal. Of all that number but four died, which is considered a marvellous record.

The main building is a large, well lighted and airy ward. It is located on the crest of the hill, commands a fine view of the town of Honolulu, the bay and the vicinities. There are no mosquitoes of consequence, the almost constantly blowing breezes which are so grateful to the patients being an antidote to the pestiferous insects. The location is one of the most salubrious near town and was specially selected because of this, and with special care and after a protracted search. The site is six miles from Camp McKinnis, which is somewhat of a disadvantage, as it is principally established for the benefit of the troops located there. True, though, that in the absence of a marine hospital, Buena Vista receives and cares for men-of-war's men, marines and all persons connected with the government marine service. No suitable site could, however, be found near the camp in Waikiki. The ward accommodates thirty patients, there being comfortable beds for that number, and it is completely furnished.

The next largest structure is the administration building, which is to the right of the ward room and connected with it by a covered passage way. In this are located the offices of the surgeon and of his assistant or assistants, the chief steward's office and the dispensary.

The kitchen is back of the ward room, also connected with it by a covered plank walk, leading from a wide protected portico. In the same building is a spacious dining room, pantries and so on.

Then there are buildings for quarters for hospital corps, the acting stewards, store houses and stables. The old Luce residence is occupied as a residence by Chief Steward Herbst with his family and has been very nicely furnished and transformed into a perfect home.

All the appointments of the institution are quite perfect. The sewage is conducted into specially constructed cess pools and thence emptied by odorless excavators furnished by the quartermaster's department and owned by the government.

The garbage is cremated on the grounds by process usually employed by the government, which work is done under the directions of the steward or assistant stewards, Japanese doing the manual labor. It is thoroughly burned and destroyed. As to the sewage and garbage the new hospital is absolutely independent of the city.

The water supply is derived from the city mains and is very satisfactory as to quantity and quality. To guard against shortage of water in the city, however, there is a private plant also and a large tank filled from a well is constantly ready for emergencies.

The hospital is, of course, thoroughly equipped for any emergency. There is an operating room, under perfect sanitary conditions, with the latest and improved operating tables, instruments and so on. The government of the United States never loses sight of the fact that the capacity of which might be largely increased, there is a sufficiency of tents and bedding for the care of 500 patients, probably, should the emergency arise.

This splendid institution is under the command of Major Platt E. Taylor, surgeon, U. S. A. Dr. Geo. K. Simms is his assistant. William Herbst, a hospital steward of ten years' experience, is the chief steward. Ordinarily there are three assistant stewards and twenty patients detailed as nurses, cooks, stablesmen and so on.

At present there are only twenty patients in the institution, all belonging to the Sixth United States artillery.

The bulk of the supplies consumed in the institution, the medical supplies and so forth, are drawn from the supply depot at San Francisco. These are the best that can be bought and the table is excellent. Vegetables, fresh meat, butter, milk, eggs and other perishable commodities are bought in Honolulu in the open market.

As are all similar institutions, Buena Vista is a training school as well as a hospital. The Siam, as stated exclusively in The Republican the other day, will tomorrow carry away a steward, an acting steward and ten trained nurses from this hospital, either to Manila or China, where they are badly needed. These men, said to be of a very superior class, were trained and drilled here. These men carry a complete service outfit, which will enable

them to do duty anywhere. Besides an overcoat each man will carry a woolen blanket, a blue flannel shirt, undershirt and drawers, two pairs of socks, a towel, five shelter tent pegs, two shelter tent poles and one half of a shelter tent. In addition each man will carry a hospital corps pouch containing scissors, pins, roll of wire gauze, flask with ammoniac spiritus aromatics, rubber tourniquet, knife, six roller bandages, spool plaster, chloroform in case, spoons of adhesive plaster, bottle of catgut ligatures, hypodermic syringe, chloroform and opium mixture, antiseptic tablets, knife, diagnosis tags, catheters and other drugs and implements intended for emergency treatment. In addition they will carry a haversack, spoons, knives and forks and other equipment. So it will be observed that it is not "playing at soldiering" to belong to the medical corps of the army.

Books, magazines, newspapers, in fact, any sort of reading matter, will be gratefully received at Buena Vista hospital, an institution worthy of consideration by the people of Honolulu.

SOME QUEER BIDS FOR SCHOOL BOARD WORK.

A Difference of More Than Three
Thousand Dollars on a Rather
Small Job.

The board of education yesterday awarded the contract for altering and repairing the Aala warehouse for school purposes to W. H. Russell at his original bid, \$1,978. This was the lowest bid for this work out of six, the highest being that of David K. Willis, who wanted \$5,047 for the same work. At Saturday's meeting of the board it was thought that Mr. Russell had not understood the nature of work required, but yesterday he appeared at the rooms of the board of education, said he understood thoroughly what was wanted, was ready to do the work at the price stipulated, and he got the contract. The bidding on this work is so remarkable as to have attracted attention throughout the city. The bids were as follows:

David K. Willis, \$5,047.
Alfred T. Trask, \$3,480.
J. A. Butterfield, \$3,175.
J. A. Bertelmann, \$2,489.
William T. Paty, \$2,350.
W. H. Russell, \$1,978.

There is a difference of \$3,069 in a rather small job.

PRINCIPAL AT KAUPAKULUA.

Sam R. Dowdle Returning to Resume
Teaching Here.

Sam R. Dowdle, a former teacher in the schools of Hawaii, but who has had leave of absence for a year, has been heard from. He has been spending his long vacation at Berkeley, near his alma mater, the University of California. He is now in San Francisco, but will be in Hawaii in time for the opening of the schools, to assume his ties as principal of the Kaupakulua school, vice Mr. Baldwin, who has been appointed one of the normal instructors. Mr. Dowdle's acceptance of this position is apparently very pleasing to the department.

WANTS PARTITION.

Machado Asks It on the Grounds
of an Original Petition.

Henry Machado, one of the defendants in the case of Mary Reyes and Raymond Reyes plaintiffs, vs. David Callahan, a minor, and Henry Machado, defendants, a suit for partition, admits the truth of each and every allegation in plaintiffs' bill of complaint and asks that the land be partitioned according to the prayer in the complaint.

The Improved White House.

One of the last appropriations made by Congress was one for \$6,000, to be spent in elaborating and perfecting a certain plan for the enlargement of the White House in Washington, which seemingly is being worked into shape in the office of public buildings and grounds under the charge of Colonel Bingham, U. S. A. The scheme now being developed is said to be the one conceived by Mrs. Harrison during her occupancy of the presidential mansion, and developed with a good deal of elaboration by a young architect of her acquaintance, Mr. F. D. Owen.

Whether Mr. Owen is now working on the drawing under Colonel Bingham's oversight, we do not know, but the block plan of the scheme as printed in The Washington Star is a less elaborate and more sensible one than we remember to have been the one made public during the Harrison administration. The present scheme has the good point of leaving the present White House unaltered, the needed additional accommodations being provided in the two wings, or rather two individual buildings set at right angles with, and somewhat to the rear of, the present building, the connection between them being through colonnades which all the exterior angles between the old building and the new ones.

These colonnades are repeated on the southern ends of the official wing and the public art wing, and unite them with the long conservatory and palm houses which close the quadrangle to the south. Enclosed by these four buildings is a small private garden, which, owing to the spaces between the new wings and the White House itself and the probable low height of the conservatory, promises to be sufficiently well lighted and aired. So far as the general scheme is concerned, it seems a fairly reasonable one, and has the merit of not injuring the architectural character of the home of our presidents. —American Architect

Good Medicine for Children

If you have a baby in the house you will wish to know the best way to check any unusual looseness of the bowels, or diarrhoea so common to small children. O. P. M. Holliday, of Denning, Ind., who has an 11-month-old child, says: "Through the months of June and July our baby was teething and took a running off of the bowels and sickness of the stomach. His bowels would move from five to eight times a day. I had a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house and gave him four drops in a teaspoonful of water, and he got better at once." For sale by all dealers and druggists. Benson, Smith & Co., general agents, Hawaiian Territory.

NEWS OF THE TOWN

Sunday's concert at the Capitol grounds was largely attended, and greatly enjoyed.

Oahu sold for less yesterday than it has sold for a long time. Five shares went for \$152.50.

C. H. Bishop of Kauai entertained Captain Saunders of the bark St. Katherine during the latter's visit on the Garden Isle.

Pikokapu, one of the members of the government band, lost part of his ear Saturday night in a fight. 'Twill not effect his playing.

The mail for the coast closes at the postoffice at 11 o'clock this morning. The Gaelic for the Orient will not sail until late tonight.

Charley Ott, the watchman on the Iwihani, fell and broke his leg on Saturday of last week. He was taken to the Queen's hospital for treatment.

E. Brandenstein of the San Francisco tea importing firm, who arrived in the Doric last night, will remain here some time on business and pleasure.

There was a choice assortment of drunks up before Judge Wilcox yesterday morning. Besides the drunks there were several men charged with assault and battery.

Children of the primary schools that desire to participate in the Labor day parade should apply to Miss Davidson in the school department, court house building, for badges.

Miss Host Max Schlemmer of Waiman, Kauai, is having trouble with his gasoline launch Tilly. She refused to go as was expected and her interior arrangements have been sent here for an overhauling.

Lieutenant von Krohn of the Imperial German navy is a through passenger on the Doric. He was badly wounded in action at Tientsin and having lost the sight of one of his eyes is on his way home.

Mr. and Mrs. Walter Magee of California are lay-over passengers from the Doric. They are returning from the Orient, whither they went on their wedding tour. Mrs. Magee was formerly Miss Flora Deane of San Francisco.

Demurrer Filed.

In the case of Mrs. Lahilahi Webb vs. Waialea Opio and Sarah Honokupu, suit for partition of property, the defendants' attorney, J. T. De Bolt, has filed a demurrer to the petitioner's bill.

Dr. Galbraith's Position.

The name of Dr. W. J. Galbraith has been used in connection with talk of proposals for a new hospital here, the institution to be conducted on a mutual payment or assessment plan. It is learned that Dr. Galbraith is not associated with the enterprise in any way further than that he was at one time approached with the proffer of the management of the hospital itself, and replied that he would consider the proposal to become its chief surgeon. Dr. Galbraith, for many years before coming to Hawaii, was chief surgeon for the Union Pacific railway.

THE HAGEY CURE CASE.

It Once More Bobs up in the Circuit Court.

In the case of Thomas M. Harrison vs. J. A. Magoon, L. C. Ables and Doron, then Emerson, in which the demurrer of defendants' was sustained by Judge Silliman, the plaintiff now files a bill of exceptions. The record in the case constitutes the bill.

Of Interest to the Ladies...

Few women care for the hair as they should. When the hair begins to come out they are alarmed. It would be much better if they give it more attention when it is in a healthy condition. The first requisite in the care of the hair is a GOOD TONIC. Just the kind we keep. Our Hair Tonic will kill dandruff. Stop the hair from falling out. Cure itchy scalp. Make the hair soft and glossy. It keeps the hair and scalp in a healthy condition. Try a bottle and give it a trial.
